

DIARIES

All students have been issued with a Diary. Please remember that the Diary is an important means of communication between school and home and is needed at school every day.

The purpose of this Diary is:

- a. to act as a valuable means of communication between home and school.
- b. to record student's home work (except Prep) to enable parents to determine whether their child has any homework each evening.

Parents are asked to sign the Diary each night and to ensure that any written teacher comments are read and homework is noted and completed by your child. The Diary and homework will then be brought back to school for the teacher to check.

Diaries are not to be decorated with inappropriate stickers, labels, or drawings. Students will be required to replace, at their own cost, a diary found to be of an unacceptable standard.
