From the Principal's Desk

The first verse of our current Scripture memory passage, Psalm 37:23-31, tells us that our steps are directed by God. Sometimes we expect God to lead us in the really big decisions in our lives, but God directs also in the small things. He shows us one small thing to do, then another followed by another. All these small steps will add up to or lead to something really significant that God has for us. Most of the people who have done great things for God have done it in small steps. In the Bible, David defeated the lion and the bear before defeating the giant. Let's remember that small things often end up paving the way to bigger accomplishments for God.
